

Grade 11 Course Selection

2020 – 2021

This form should be read and completed alongside the Grade 11-12 Course Descriptions Guide.

Circle the programme you will pursue:

ISA Diploma
+
IB Diploma

ISA Diploma
+
IBDP Course Certificates

Guidelines

All students completing grades 11 and 12 are eligible for the ISA diploma, provided they meet the requirements defined in the ISA Handbook and the *Grade 11-12 Course Descriptions Guide* guide.

Students taking the full IB Diploma Programme must take three Higher Level (HL) subjects and three Standard Level (SL) subjects. To begin HL classes, students are typically expected to have completed an MYP course (or its equivalent) and earned an achievement grade of 5 or higher.

The full IB Diploma is based on the following groups:

Group One – Language and literature

Group Two – Language acquisition

Group Three – Individuals and societies

Group Four – Sciences

Group Five – Mathematics

Group Six – The arts

ISA offers a wide range of courses for IB Diploma and IBDP course certificate candidates. However, it is important to recognize that not every combination of courses can be available for all students. If two classes meet at the same time, a student will have to choose a course that is his or her higher priority. This is the purpose of our grouping or “silo” system. Fortunately, we are able to offer a schedule of courses that allows students to take our most popular, and most practical, combination of courses.

Instructions

Students choose one subject from each of the “silos” listed on the reverse of this page. If they are pursuing the full IB Diploma Programme, they must be careful to choose a sufficient number of HL and SL courses from the appropriate groups.

Please forward the completed and signed form to the Admissions Office at admissions@isa.nl
