Polices and Guidelines

The International School of Amsterdam plans school budgets, staffing and programmes for an entire school year at a time. This is done to ensure the quality of the educational environment and the consistency of the programme for students. In order to do so, it is important to have consistent funds from tuition available throughout the school year. Therefore, policies and guidelines for collection of school tuition and fees have been developed and approved by the Board of Trustees. In all cases, the school will strictly adhere to these policies.
